

# Hills Reliance Series

---

---

## Hills - Technology solutions that connect, entertain and secure.

Across Australia and New Zealand, Hills is a leading technology provider, specialising in security, IT, audio visual, health, antenna and communications solutions. Not only do we distribute an extensive range of market leading brands, we design built-to-purpose technology solutions, giving us competencies across the sector that few others can match.

---

## Hills Reliance Series

With advanced features, industry leading functionality and user-friendly operation, the Reliance series of products delivers, cost effective security. Adaptable to a variety of applications from residential to commercial, the Reliance range offers end users an easy to manage system that can be expanded and customised with a range of accessories.

Applications include residential, multi-storey, education, retail, government, aged care and warehousing.

## Reliance Accessories

Hundreds of different programmable options allow you to customise the Reliance series security system and add functionality as its needed.

External 2-way wireless siren with lithium battery pack ensures easy installation.

IP66 rated outdoor camera offers true day/night functionality and 20m IR Illumination for optimal viewing.

PIR sensor communicates with an 80Plus receiver and sends a unique ID code with each transmission.

Keyfob remotes are available to arm/disarm the system utilising the built in receiver.

The Reliance wireless door or window sensor uses 80Plus wireless protocol in a 433Mhz frequency.

Wireless interconnected smoke alarm features built-in 85dB T3 sounder with status LED.

UltraSync 7" TouchScreen connects to Reliance XR panels via Wi-Fi® and features an icon-driven interface for at-a-glance visibility.

A compact, low profile contact, Micro DWS provides intrusion detection and can easily be installed on doors, windows or cabinets.

The XR Touch offers simple, fingertip control via its clear 3.5" touch screen with easy to understand graphic icons.

## The next generation

The XR and XRpro are the next generation in Reliance panels:

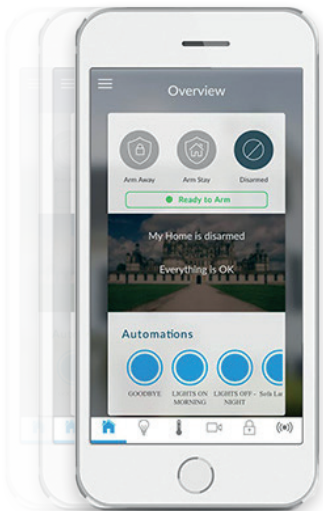

- **Compatible with existing Reliance equipment**
- **NBN ready**
- **Built in IP communication**
- **True monitored path via UltraSync™**
- **Data stored on panel**
- **Encrypted connections**
- **Z-wave® compatible**
- **Native IP/camera support**
- **4G/WiFi Module**

4G/WiFi Module adds 4G cellular communication capabilities to the Hills Reliance XR alarm panels, allowing alarm reporting and remote connections over the 4G mobile network via UltraSync+ Cloud.

## UltraSync+™ Mobile Application

Extend the programming and interactive capabilities of Reliance series security systems with the UltraSync+™ mobile application. The UltraSync+™ app enables smart control of Reliance products in real time from any location using cloud based technology.

- **Arm and disarm system remotely**
- **Check if doors and window are open**
- **View live video and event-triggered recorded clips from security cameras**
- **Monitor specific areas such as safes or medicine cabinets**
- **See when children arrive/leave home**
- **View live video to check on pets (only over IP)**
- **Monitor history of users and events**
- **Lock and unlock doors with Z-Wave® compatible locks**
- **Compatible with Z-Wave® devices**

UltraSync+™ is compatible with IOS versions 8.0 and above and Android versions 6.0 and above.
