Plug and Play Installation

3YR 3 Year Warranty

Proudly Australian Owned

Free Monitoring App for Android & Apple devices

View images, save footage to your phone. Easy setup by simply scanning a QR code. Phone not included

Video Surveillance

All you need for a quality video surveillance solution is in this box:

4 x IVSEC NC110XB 5MP IP Cameras

5 Mega-pixel high resolution

Built-in PIR sensor can trigger recording

Most cameras can only record on movement detection, but this creates a lot of unnecessary recording with moving branches or vehicle headlights. With this kit, you have the choice of using motion detection and/or the built-in PIR sensor to trigger recording. This can save a huge amount of storage and makes it faster to find the events which really matter.

**Wide-angle 99 degrees lens
+ 30m infrared night vision**

IVSEC NR308XB Network Video Recorder

8 PoE+ ports built-in

Room to add 4 more cameras on top of the 4 in this kit.

H.265 video compression

The most up to date video compression technology. Saves storage space and bandwidth.

Long range PoE+

4K HDMI and VGA output

Additional Inclusions

5 x CAT 5 ethernet cables (4x18m, 1x1m)

1 x HDMI cable (1.8M)

Mouse + remote control

2TB Western Digital Surveillance Grade Purple HDD pre-installed!
